

NEW HIRE
F A C T S

If you are like most responsible employers, you are conducting background checks on all applicants and annual background checks on your employees. As you may have noticed, however, thoroughly screening applicants and keeping your employee background screens up to date can be time consuming...and expensive. Background screenings are as important as ever as hiring fraud is at an all-time high with job seekers routinely embellishing (and in some case flat-out lying) during the hiring process. It is an employer's responsibility to provide a safe workplace for employees, safe premises for customers, and to ensure it is hiring qualified candidates. To do this, employers must verify important facts applicants disclose during the hiring process and discover ones, including past criminal activity, an applicant may not have disclosed that could both disqualify the applicant and put the employer at risk.

That's where we come in...New Hire Facts is part of a 20-year old private investigative entity located in central Ohio that specializes in background verifications, fraud and workers' compensation investigations, and security consulting. To better serve employers, we developed the Verified Professional Identity — a state-of-the-art platform that assembles a true picture of any individual's background including identity verifications, a national background check, and education/employment verifications. We know that each workplace is different, and therefore we can develop a personalized screening program to fit your company's specific hiring and employment needs. We strive to deliver a professional, cost-effective service with timely results for each and every client.

New Hire Facts is also deeply committed to the community and to charity. Our agency partners with 104.9 the River in the Central Ohio Jobs Initiative to help local job seekers get pre-verified and hired faster. We also donate a portion of the proceeds from our background checks to support our non-profit ministry partner, Protect the Faith. Protect the Faith provides high-risk training and security services for over 3,000 missionary families serving in dangerous places around the world.

Please contact us for pricing information or to arrange a free consultation. We look forward to working with you!
